

Alberto Robazza

Treviso, Italy | robazza.alberto@proton.me | +39 342 025 3754 | linkedin.com/in/alberto-robazza/

Highlights

- **Researcher:** Fine-tuned and reduced training time by 50% through strategic feature analysis.
- **Responsible:** Owned end-to-end model selection and deployment for a production-ready software.
- **Team-oriented:** collaborated on winning data science competition through novel encoding approach.

Experience

A.I. researcher engineer, International internship, University of Valencia – Sep 2025 - Mar 2026
Valencia, Spain

Developed a production-ready software impacting a company in the educational sector, actively participating in a team.

- Owned end-to-end model selection: evaluated 4 models, selected solution achieves 5s inference.
- Delivered 90% accuracy on VLM writing style via prompt engineering.
- Selected speech-to-text model achieving 88.5% accuracy on-device, matching cloud services while preserving user privacy.

Projects

ML Engineer | Ad Description Generation with LLMs (Bachelor Thesis) 2023

- Engineered end-to-end pipeline: scraped 9,000+ listings, gathering data to create 44-feature dataset, fine-tuned Flan-T5 for automatic ad-generation in <2 minutes on consumer GPU.
- Optimized training from 10 to 5 epochs (50% reduction) maintaining 0.16 ROUGE accuracy via correlation feature selection, reducing compute costs.

Reverse Engineer | Firmware Extraction Pipeline (Personal project) 2025

- Reverse-engineered commercial Android application using jadx/APKtool, designed certificate-based authentication workflow with mitmproxy, extracted firmware package

Data Scientist | Income prediction model (Group competition) 2022

- Collaborated in a 3-person team to predict income tiers from demographic features. Engineered a novel statistical encoding approach for categorical variables, which provided a more bias-free approach than standard methods, actively discussed with team members about implementation, resulting in the winning prediction score for the class.

Education

University of Udine & University of Klagenfurt | Udine, Italy & Klagenfurt, Austria Oct 2023 – Apr 2026

Master of AI & Cybersecurity

University of Udine | Udine, Italy Oct 2020 – Oct 2023

Bachelor of Internet of Things, Big Data, Machine Learning

Southern Cross University | Gold Coast, Australia Aug 2024 – Dec 2024

International experience

Norwegian University of Science and Technology | Trondheim, Norway Jan 2023 – Jun 2023

International experience

Skills

ML/AI Systems: PyTorch, HuggingFace Transformers, llama.cpp, ONNX, prompt engineering, model evaluation

Data Engineering: pandas, NumPy, web scraping

Programming languages: Python, C, C++, Bash
